

SHSM Program Planning Template

Teacher Name	Dan Fisher fisherda@limestone.on.ca	Katherine English englishk@limestone.on.ca
School Name	Ernestown Secondary School	
Sector	Building Construction Internship Program (BCIP)- Construction	
Existing SHSMs at the School	Arts and Culture, Energy and Information	

SHSM Program Description:

The Building Construction Internship Program, BCIP, offers students authentic site experience in completing a new construction project. In teaming up with our community partners, BCIP students can work in all the essential construction trades which contribute to the building of a house. The BCIP is synonymous with the expanded opportunities of the Specialist High Skills Major in construction. Our credit packages allow students to obtain the two construction major credits, the other required credits, and coop credits included in the bundle of ten credits needed to receive the red seal. Students in BCIP also receive all seven certifications (5 compulsory and 2 elective) required for the construction SHSM.

*SHSM programing is for students from all pathways.

This SHSM Program provides opportunities for the following potential occupations:

The BCIP program can help with students from all pathways. Workplace students can earn actual job skills, construction knowledge and safety training employers are looking for. Apprenticeship bound students can gain the necessary knowledge and skills to go on to the Ontario Youth Apprenticeship Program and Phase One of their training. The BCIP is ideal for students who are considering post-secondary studies (college and/or university) in architecture, engineering, and construction management or building inspection.

Pathway Chart: Below are the course codes that are linked to the sector and are offered at this school.

***Most common course courses linked to the program**

SHSM Major Subjects
