

Lock out Tag out

Program Overview:

This program consists of a comprehensive in-class theory program covering Isolation of Hazardous Energy. Participants will have the opportunity to handle a large assortment of lockout devices and components while learning how to safely and effectively apply them to prevent accidents and damage caused by the unexpected movement of machinery and equipment due to the release of hazardous energy.

Training Content:

- Ontario lock out/tag out legislation – Regulation 851
- Hazard Recognition – Risk Assessments
- “Zero Energy State”
- Lock Out Devices
- What is an Emergency Stop
- Energizing and De-energizing Equipment
- Disconnects
- The Lock Out Tag Out Program Requirements and Procedures
- Serious Mistakes

Course Duration:

- Two (2) Hours dependent upon number of participants
